# Heating, Cooling and Ventilation Systems

For Residential, Commercial and Industrial Applications

always the best climate

# Contents

## Decorative Radiators 04

Designed to provide exceptional performance and energy efficient operation, our radiators not only look good in a wide range of environments, but also ensure warmth and comfort.

## Comfortable Indoor Ventilation 08

As you would expect from a leading ventilation manufacturer, we provide a variety of mechanical ventilation systems for residential and commercial applications including new build and refurbishments.

## Heating and Cooling Ceilings 16

Zehnder is the largest manufacturer of radiant ceiling panels in Europe, with over 50 years' experience gained from supporting the commercial application of radiant panels including in education and healthcare sectors.

## Industrial Air Cleaning 18

Beyond simply filtering particles from the air, our air purification system gives you ultimate peace of mind in your working environment. From bottom line benefits to the positive health impact, clean air will transform your workplace.

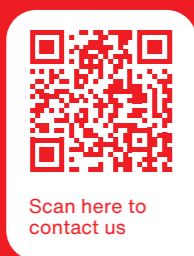

## How We Can Support You 20

## Colours and Special Finishes 22

## Accreditations, Certifications & Assurances 26

## You're in Safe Hands with Zehnder 28

# always the best climate

Our mission is to provide a healthy indoor climate with top quality solutions. Living spaces are kept at a comfortable temperature by our radiators and heating & cooling ceilings whereas our ventilation solutions make sure that you can breathe fresh clean air 24/7.

- Decorative radiators ■ Comfortable indoor ventilation
- Heating and cooling ceilings ■ Industrial air cleaning

global presence in over 70 countries

## Your global partner for indoor climate

### Trusted partner

We provide our customers with tailored services from planning to installation of excellent solutions for the best indoor climate since 1895.

### Know what's next

Consistent focus on innovation has always been the motor for our business. We strive to provide intelligent solutions for ventilation, heating, and cooling.

### Swiss quality and precision

Swiss quality and precision are reflected in all our products. Our design standards create timeless elegance in living spaces for yesterday, today, and tomorrow.

### Know why, know how

It is our ongoing mission to share our expertise and know how with our customers by providing expert trainings. Our dedicated Zehnder academies bring indoor climate to life.

# Decorative Radiators

Zehnder decorative radiators bring warmth and design into any home or commercial environment. For every property, for every system, you will find a radiator that suits your interior.

Explore the full range

## Zehnder Charleston

- Timeless multi-column radiator, equally at home in modern or traditional environments.
- Can be Made to Measure, angled, or curved.
- Manufactured using laser welding technology.
- Available in a range of colours and finishes.

## Product Showcase

All models are available in a range of colours from the Zehnder World of Colours chart found on page 24.

### Zehnder Deline

- Discreet and functional towel radiator with plenty of hanging space for towels.
- Hidden air vents and obscured brackets.
- Dual energy option available through the use of a self-fit supplementary heater.

### Zehnder Nova

- Its slim depth and modern look make Zehnder Nova a versatile choice.
- Made to Measure and Engineered to order options support a wide range of application, such as curved models.
- Designed to offer short response time.

### Zehnder Ribbon

- Sleek and stylish towel radiator with flat diagonal tubes and horizontal rungs inspired by architectural structures.
- Ample space between tubes for ease of cleaning.
- Designed in Italy by the award winning King & Miranda.

### Zehnder Fare Tech

- A unique electric radiator with an elegant curve shape allowing comfortable radiant heat to disperse optimally throughout the room.
- Smart integrated control panel allows for easy control.
- Manufactured from aluminium and with intelligent open window detection.

## Trench Heaters

Zehnder's Trench Heaters are set into the floor and seamlessly blending into your room design. Their unique construction allows for efficient heating, making them ideal for spaces with extensive glazing or limited wall space.

# The Zehnder Studio Collection

The Zehnder Studio Collection is an extraordinary range of products designed to delight and challenge convention.

This range of innovative products includes bold designs and contemporary styles which showcase Zehnder's unwavering technical expertise.

## Zehnder Arteplano

- An impressive room radiator with a beautiful metal front plate able to blend-in or stand-out in any environment.
- Available in popular Etched Brass and Etched Copper finishes, in addition to a wide range of finishes from the Zehnder World of Colours chart.
- Electric and hydronic models available.

## Zehnder Chime

- Distinctive towel radiator with large rails allowing towels to be easily slid on and off.
- Hydronic models able to be installed with horizontal tubes either on the left or the right.
- Available in 3 PVD finishes in addition to a wide range of finishes from the Zehnder World of Colours chart.

## Zehnder Zenia

- Electric towel warmer, towel dryer, infrared radiator and boost heater all-in-one with an ultra-modern, innovative and energy-efficient design.
- Ample space for two large towels inside the unit.
- Can be installed flush or wall mounted.

## Zehnder Tetris

- The latest towel radiator designed by studio King and Miranda is a fusion between nature and architecture, inspired by the flow of a river and the rhythm of flight.
- Available in a wide range of colours from the Zehnder World of Colours chart.

Explore the full range

# Comfortable Indoor Ventilation

As you would expect from a leading ventilation manufacturer, we provide a wide range of whole house mechanical ventilation systems for both new builds and refurbishment projects, in addition to a wide variety of commercial applications.

## Zehnder ComfoAir Flex

### Ceiling-Mounted MVHR Unit

- This state-of-the-art MVHR unit is specifically developed for apartments and smaller houses, and maintains optimal comfort levels.
- Passive House Certified.
- Easy installation and control with the ComfoControl App.

## Product Showcase

### Zehnder ComfoAir

#### Compact Heat Recovery Unit

- The Zehnder ComfoAir 155 and ComfoAir 185 units offer heat recovery in a modern, discreet design.
- Left or right hand configuration through software alone, no mechanical alteration required.
- Manufactured in the UK.

### Zehnder ComfoAir Q

#### Heat Recovery Unit

- 96% efficiency, Passive House Certified, and suitable for properties ranging from 250m<sup>2</sup> to 350m<sup>2</sup>.
- Improving indoor air quality by filtering bacteria, pollen, and up to 90% of fine ePM1 particles over the filter's lifespan.
- Flexible connections and commissioning wizard for easy installation.

### Zehnder ComfoPost

#### Air to Water Exchanger

- Air to water exchanger for use with ComfoWell air distribution connections.
- Ideal for use with reversible heat pumps or chillers to meet SAP10 or TM59 overheating demands.
- Available in four models suitable for a wide range of airflows from 300 m<sup>3</sup>/hr to 600m<sup>3</sup>/hr.

### Zehnder ComfoClima

#### Air Temperature Device

- Cutting edge indoor climate control with the Climate Switch® Technology.
- Reduced pollutants due to our enhanced filters concept for supply of clean fresh air.
- Low noise operation ensuring the occupants are not disturbed.

### Zehnder Luna Valve

#### Supply Air Valve

- Slim and discreet design ensures effective integration in all dwelling types.
- Airflow locking mechanism prevents unintentional changes to settings.
- Impressive performance with very quiet airflows.

Explore the full range

# Residential Ventilation

Our Greenwood product line offers a wide range of products, including bathroom and kitchen extractor fans, whole-house ventilation systems, and passive ventilation units. These products are known for their innovative designs and use of advanced technologies to improve indoor air quality while reducing energy consumption.

## Greenwood Unity CV2.1

Continuous Extract Fan

- Designed to comply with PAS2035 and ADF (2021 Edition).
- The only dMEV on the market to be listed on the PCDB with a specific model (CV2.1CTA110) designed to be utilised with semi-rigid ductwork to reduce leakage.
- Ideally suited for large scale planned new build and maintenance programmes.

## Product Showcase

### Greenwood Unity CV3

Continuous Extract Fan

- Contactless technology for simple set up, customisation, and data logging
- Airflow sensing technology senses and reacts to match the correct performance for each installation.
- Ultra efficient, with low energy use and high performance.

### Greenwood MA3051

Acoustic Wall Ventilator

- Highest performing acoustic wall ventilator in the UK, providing acoustic attenuation to Dn,e,w 55dB.
- ideal for new build applications where noise planning restrictions are in place.
- Providing up to 55dB reduction and suitable for wall thicknesses of 140mm and above.

### Greenwood 4000-5000EAV

Variable Slotvent

- Designed with flexibility in mind, these vents can be partially closed to maintain comfortable natural ventilation.
- Includes slimline models suitable for the narrowest of window profiles and low profile options that are discreet when installed.
- Manufactured from tough and strong ASA plastic which is known for high impact wear and UV resistance - minimising the risk of decolouration and weathering.

### Greenwood CMEV.4e

Central Mechanical Extract Ventilation

- Compact, quiet whole house central extract unit designed for easy installation and optimal energy efficiency.
- Energy-efficient EC motor with five extract spigots, designed for easy removal and cleaning when needed, suitable for wall or ceiling mounting.
- Includes options with additional humidity sensing technology.

## Zehnder Carma

- Fitted with a counter-flow heat exchanger.
- Efficiency greater than 90% EN 308 certified.
- Very low acoustic radiation and high thermal insulation.
- Simplified commissioning system EUROVENT certified range.
- EUROVENT certified.

## Zehnder Silvertop

- Fitted with a counter-flow heat exchanger.
- Design suitable for installation in a technical cupboard thanks to its upward connection and its reduced size.
- EUROVENT certified range.

## Zehnder Eversky

- Decentralised ventilation range for room-by-room installation.
- No network required, particularly suitable for renovation projects.
- Applications: classrooms, nurseries, offices and shops.
- EUROVENT certified performance (D2/L1/F9/T3/TB3).
- Patented innovations at the service of its adaptation to each site.

## Zehnder Neotime

- Fitted with a counter-flow heat exchanger.
- Extra-flat, ideal for ceiling mounting for a space-saving solution.
- It can treat up to 2500 m<sup>3</sup>/h of air for a height of 400mm.
- EUROVENT certified range.

# Air Distribution

## Quick. Easy. Secure.

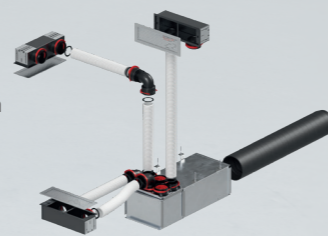

Zehnder's comprehensive range of air distribution solutions, designed to efficiently route air from our ventilation systems to targeted spaces, are perfect for various project requirements, including new builds and renovations.

### Zehnder RapidLock®

Zehnder RapidLock® is the latest invention in air distribution – quick to install, easy to maintain, safe and airtight. Connecting air distribution ducts is a simple and efficient process, with no need to lubricate gaskets or assemble clips.

- Quick to install, easy to maintain, safe and airtight.
- Optimal indoor comfort and silent operation.
- High-quality components for reliability, durability and longevity.

# Benefits of the new Zehnder RapidLock®

#### Pre-installed clip:

- A permanent pre-installed clip enables quick insertion of the ducts.
- The connection is firm and secure, even at a 90-degree rotation.

#### New clip technology:

- New clip technology prevents unclipping.
- The robust holding force ensures a secure connection.

#### Easy dismantlment:

- The clip makes it easy to disassemble for later maintenance or cleaning.
- Can be reused, making it more sustainable.

#### Low-risk application:

- The clip ensures low-risk application.
- The connection is airtight, even if the clip is not fully inserted.

#### Radiant sealing:

- Radiant sealing provides the best possible seal against leakage.
- Later air distribution complaints are prevented.

Fast installation

Safe and secure

Easy dismantling

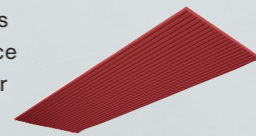

# Heating and Cooling Ceilings

Zehnder is the largest manufacturer of radiant ceiling panels in Europe, with over 50 years' experience gained from supporting the commercial application of radiant panels in numerous sectors, including education and healthcare.

Because of their easy installation and maintenance, as well as their energy efficiency benefits, our products are finding greater prominence in domestic environments.

## Zehnder ZFP Urban

- This radiant ceiling panel is specially designed for office buildings, catering areas or restaurants.
- Over 700 different colours, 11 lengths, 9 widths and smooth or perforated surface.
- Save up to 40% energy - when combining Zehnder ZFP Urban with a heat pump the energy use will be optimised even more.

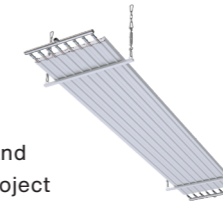

Find out more here

## Products Showcase

### Zehnder ZFP

- Designed to form part of an innovative modular system and easy to tailor to customer project requirements.
- High performing all year round.
- Lightweight and ideal for low roof loads.

### Zehnder Carboline

- A smooth, flat and lightweight panel designed for both heating and cooling.
- High performance and temperature distribution.
- Models available for both open and closed ceilings as well as plasterboard ceiling solutions.

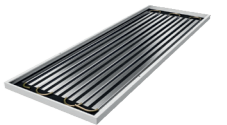

### Zehnder ZIP

- Corrosion resistant and an ideal solution for damp rooms.
- High mounting heights and large space heating.
- Available in a range of colour finishes.

### Zehnder Alumline

- A functional solution for both heating and cooling.
- Energy efficient and provides architectural freedom in design.
- High quality paint is used on the surface ensuring durability.

## Areas of Application

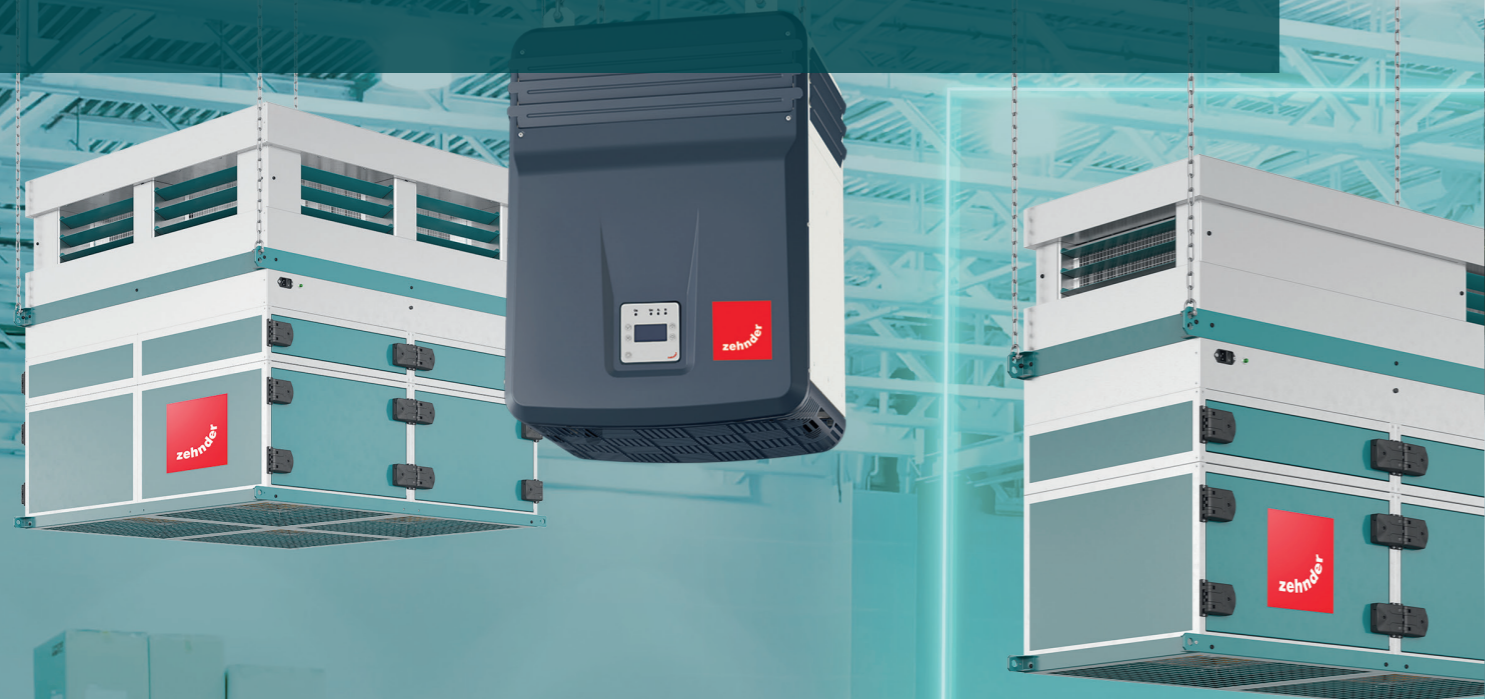

Radiant Ceiling Panels provide an energy-efficient heating and cooling solution for various environments, from production halls to hospitals. By offering uniform temperature control, noise reduction, and clean operation without dispersing dust, these panels enhance comfort, hygiene, and adaptability across different settings.

# Industrial Air Cleaning

Beyond simply filtering particles from the air, our air purification system gives you ultimate peace of mind in your working environment. For ultimate tracking management and agility, our systems can come with integrated smart IoT solutions.

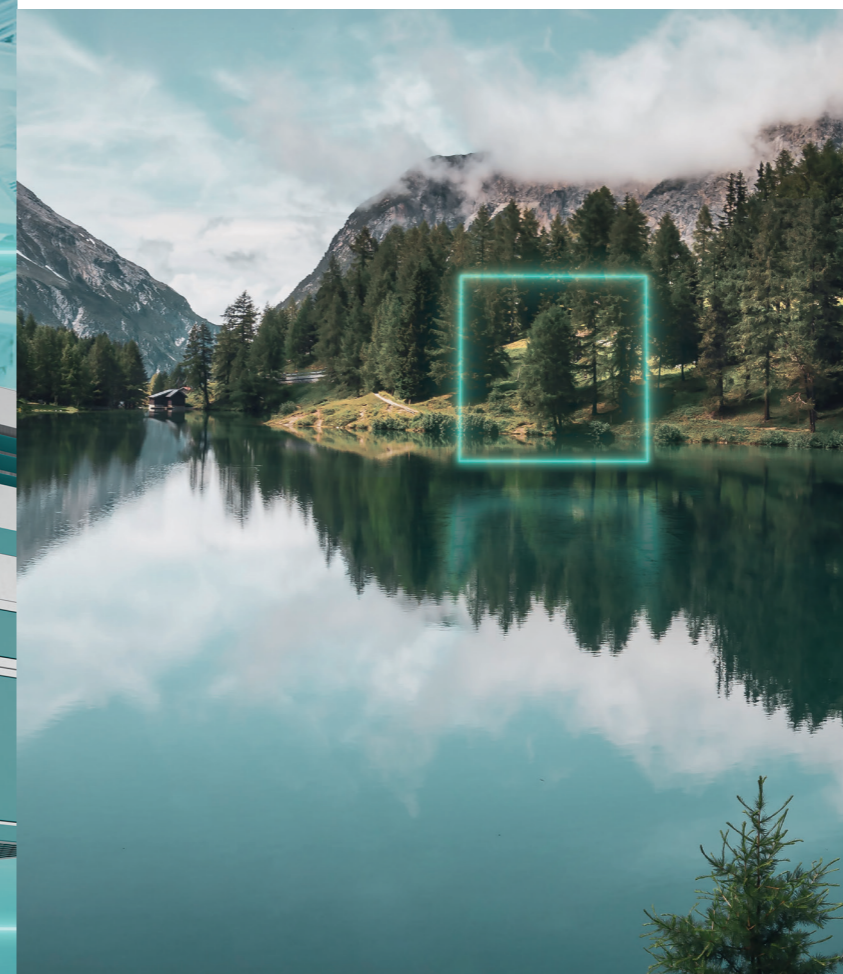

## With all our air purifiers you can expect:

- High clean air delivery rate.
- Air outlets on all four sides.
- Above average long-life filters.
- Custom filter systems to match your needs.
- Flexible installation in ceilings, walls or floors.
- Simple plug & play.
- Market leading technology.

# What do our systems offer?

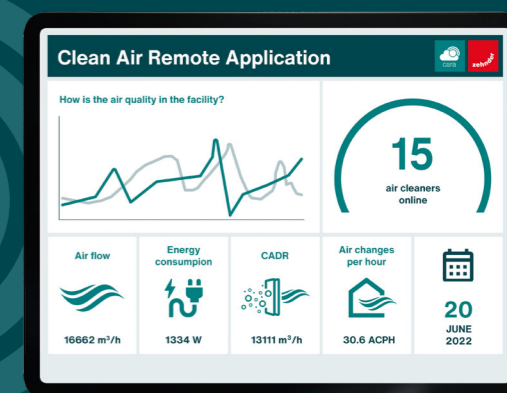

**Our industry-leading industrial air purification systems effectively filter fine and coarse dust, oils, vapours, microorganisms, and other harmful particles from your air the moment our devices are activated.**

The result is high quality, clean air which delivers a suite of benefits:

- Lower heating costs and more money in your pocket.
- Healthier employees that are less likely to call in sick.
- More reliable machines that require less downtime.
- Better product quality, resulting in fewer complaints.
- A stronger and more positive corporate image.

## Introducing CARA: making your air purification smart

Clean air just got smarter with CARA: our powerful Clean Air Remote Application. With a suite of smart features, CARA ensures clean air is easily accessible with just 1 touch

# How We Support You

You can rely on us to be aware of industry regulations and their potential impact on you. We'll work with you to ensure you meet compliance, as well as specify the appropriate products for building occupants.

## UK Manufacturing

From our Maidstone facility, we manufacture and distribute a range of products to the UK and international customers. Supporting UK manufacture has many benefits, from reducing CO<sup>2</sup> impact by minimising transportation of goods, to assurances on product manufacturing quality.

## Sustainability

For Zehnder Group, sustainable business is an opportunity to generate customer benefits, growth and profitability without having a negative impact on the environment and society. We would like to go one step further in the future. We strive to have regenerative impact on the environment while also protecting biodiversity.

## Zehnder Specification Centre

Our Zehnder Specification Centre in London, captures the endless possibilities that our heating, cooling and ventilation products can bring to the built environment.

Here, you can experience our products in operation within a comfortable environment in which we can discuss the potential for integration into your upcoming and existing projects.

You can be assured that we'll be able to support your HVAC requirements - whatever they might be.

## Zehnder Academy

The Zehnder Academy is designed to offer a range of educational resources to help professionals enhance their expertise and skills. We strive to provide our customers, installers and end-users with a wealth of information to help them excel in their professions and deliver improved indoor air quality and comfort to living and commercial spaces.

## CPD

We have a portfolio of accredited CPD presentations, covering key technologies used to heat, cool and ventilate buildings - including our Ventilation Methodologies and their Application CPD, through to MVHR in Passive House. Our CPD presentations have been independently certified by CIBSE and RIBA. The presentations can be hosted at your premises, online through video conferencing, or you can utilise our Head Office in Camberley, or our Specification Centre in Islington, London.

Nominate a **Zehnder employee** for a WOW! Award

The WOW! Awards is an independent employee recognition programme which is designed to showcase positive stories of excellent customer service. Nominate a Zehnder employee today by scanning the QR Code.

# Colours and Special Finishes

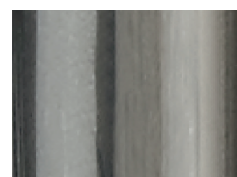

Our decorative radiators come in an array of finishes that cater to diverse interior design preferences. Whether you're aiming for a modern, minimalist look or a more classic, traditional feel, we can provide a finish to match.

We have a range of finishes exclusive to specific models (as shown below), in addition to our World of Colours chart which includes carefully curated colours from five modern colour worlds. See page 24-25 to explore the available finishes.

## Metal Surfaces

A number of our radiators are available in Chrome and Brushed Stainless steel as standard finishes. We also have a variety of exclusive surfaces which are only available for our Zehnder Charleston range.

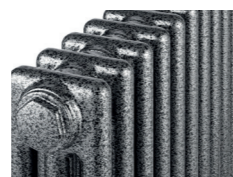

**Technoline (Clear)**  
0325 Gloss

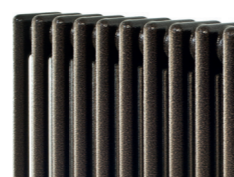

**Chrome (Surface)**  
0008 Matt

**Stainless steel brushed**  
9517 Matt

**0422 Black-silver hammered finish (gloss)**  
Only available for Charleston range

**0421 Copper-black hammered finish (gloss)**  
Only available for Charleston range

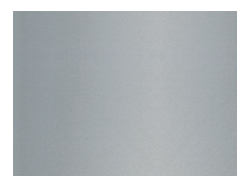

**Rose Copper finish (gloss)**  
Only available for Charleston range

**Rustique finish (gloss)**  
Only available for Charleston range

## Exclusive Aluminium Finishes

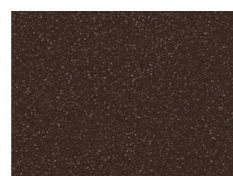

All five of these finishes are available exclusively with Zehnder Blok, Zehnder Svelte, and Zehnder Lissett aluminium radiators.

**Aluminium**  
0371

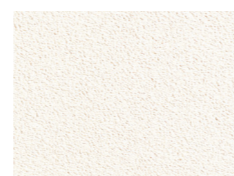

**Champagne**  
SAP10020

**Marron**  
SW208F

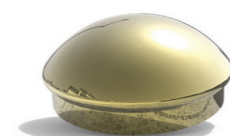

**Nickel Look**  
M3000L

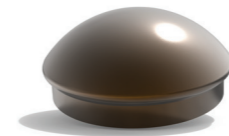

**White Sable**  
SBP9010

## Deluxe Finishes

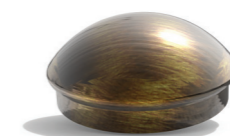

These Deluxe finishes are available to order on the Zehnder Balmoral, Zehnder Buckingham and Zehnder Osbourne radiators.

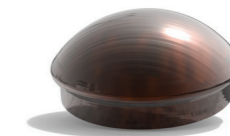

PB Polished Brass

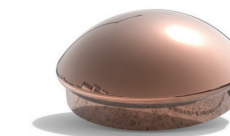

AB Antique Brass

BZ Antique Bronze

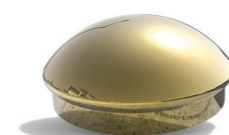

AC Antique Copper

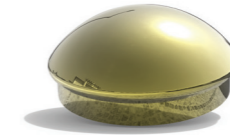

PC Polished Copper

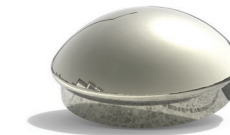

BC Brushed Copper

AG Antique Gold

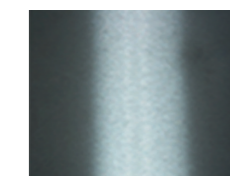

DG Dark Gold

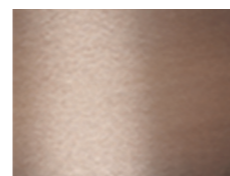

BN Bright Nickel

## Arteplano Finishes

The Zehnder Arteplano and Zehnder Arteplano Premium include six exclusive finishes in addition to colours available from our World of Colours colour chart.

Brushed Black 9536

Brushed Bronze 9535

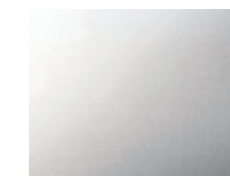

Mirror 9516

Etched Brass 9521

Etched Copper 9523

Anodised Aluminium 9501

## PVD Finishes

The Zehnder Chime and Zehnder Pera are both available in three stunning PVD finishes in addition to our Stainless Steel Mirror finish.

Brushed Black Chrome N211

Brushed Bronze N213

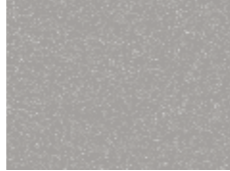

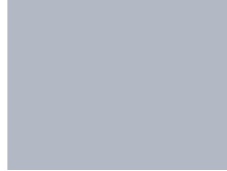

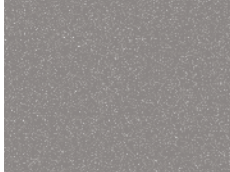

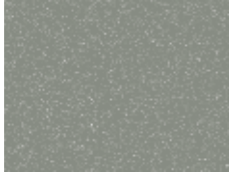

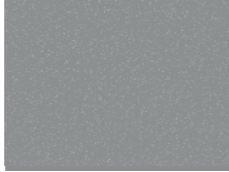

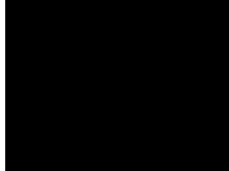

Brushed Brass N209

# Accreditations, Certifications and Assurances

## MARC

As a proud member of MARC, we are dedicated to upholding the high standards that this association expects of its members. MARC members are continuously working to improve industry standards and consumer protection in relation to heating products.

## Eco Design

We're deeply committed to reducing the environmental impact of our products. That's why we are focused on developing Eco Design compliant radiators and convectors. These products are designed to consume less energy and reduce CO2 emissions, without compromising on performance or comfort. In doing so, we're helping our customers move towards a more sustainable future.

Zehnder products that fall within the scope of the Eco Design Directive offer high quality performance with efficient controls to help reduce unnecessary energy wastage and running costs including;

- Low energy consumption when on stand-by (<0.5 watts)
- Programmable operation (weekly)
- Open window detection

## Passive House

Passive House is a leading international low energy design standard with which we are closely aligned.

We offer a complete range of Passive House accredited heat recovery systems, suitable for small apartments through to large houses, and offer a full design service for multi-dwelling builds.

Our Passive House accredited heat recovery units extend across the Zehnder ComfoAir range, including our industry-leading ComfoAir Q and ComfoAir Flex units, with up to 96% heat recovery efficiency.

## CIBSE TM59 Methodology

CIBSE's TM59 design methodology aims to tackle overheating issues at the design stage of new dwellings. The methodology is a collaboration of TM52 and CIBSE Guide A, and ensures both target temperature (26°C) and the frequency this temperature is experienced does not exceed stipulated criteria.

At Zehnder we have championed CIBSE's methodology, as this supports the approach we have adopted in delivering a full suite of integrated products that form our cooling hierarchy.

## RIBA

The Royal Institute of British Architects (RIBA) is committed to making architecture accessible to everyone. RIBA provides opportunities to the public to explore and discover more about

We have a variety of different RIBA approved CPD materials

## SAP Appendix Q

Appendix Q of SAP provides a means whereby validated, individual branded product performance information can be accessed and used as an adjunct to the SAP calculation.

We use rigorous verification procedures to validate our performance data, and our products are featured in the Product Characteristics Database (PCDB). They appear within the following category listings for Mechanical Ventilation:

- Balanced whole-house mechanical ventilation with heat recovery
- Decentralised MEV
- Semi-rigid MVHR duct

## BEAMA

Active engagement with BEAMA enables us to discuss industry regulations and changes that would support the growth of our industry, as well as develop proposals to represent the association members' best interests. With a high degree of industry experience across those representing our organisation, we are well positioned to contribute to the growth of the HVAC sector.

## BESA

BESA has been driving excellence so everyone can expect and experience better buildings, and better buildings support better lives.

BESA's mission includes setting and upholding high standards, enabling building engineers and operators to have a clear understanding of what constitutes excellence and what is required to attain it.

# You're in Safe Hands With Zehnder

## UKAS Tested

All Zehnder products manufactured in the UK are tested at third party UKAS accredited test houses to all current British and European standards:

## BS EN 13141-1

2004 Ventilation for Buildings

## BS EN 1027

2000 Watertightness

## BS EN 1026

2000 Air Permeability

## BS EN ISO 717-1

1997 Airborne Sound Insulation

## ISO9001:2015, ISO4001 and ISO45001 certification

For quality, environmental management and carbon foot-printing, we use robust frameworks and processes.

This ensures that we are consistent in our business operation. It allows us to measure ourselves and look for genuine areas of improvement. We also use a 360 degree feedback mechanism.

We are proud of our achievements, especially our quality performance.

## Warranty

All products manufactured under the Zehnder brand are developed using the very highest standard best in class components, technologies and manufacturing processes.

For specific product warranty details, visit: [www.zehnder.co.uk/en/support/delivery-returns-warranty](http://www.zehnder.co.uk/en/support/delivery-returns-warranty)
